

PEOPLES DEMOCRATIC PARTY

MANIFESTO

2021

PREAMBLE

Fellow Countrymen, Ladies and Gentlemen, you can very well recall the history of our country Kenya, While Kenyans, through the struggle for self-rule, successfully earned liberty for themselves, a handful elites endeavored to place power in their hands to the exclusion and outright detriment of Mwananchi.

Kenya has arguably had tremendous progress in the political, social and economic fronts since the country achieved political independence in 1963. Although, there has been an elusive Kenyan dream, of having sovereign power rest in the people, the post-independence political scene has greatly been characterized by continued efforts to structure and restructure the country's political system on the one hand and pro-democratic struggles on the other.

Despite the glamour of independence and the prospects as were associated with it, more than half a century, Kenya still acutely faces several development challenges including poverty, disease, unemployment, negative civic engagement among other mutating challenges.

Peoples Democratic Party has a new approach to politics and Governance. We not only want to put this country to a new political footing, Our aim is to bring a totally new approach concerning Governance.

The Party shall ensure the protection, promotion and fulfilment of Peoples Economic and Social rights, preservation of our Environment and Natural Resources guided by the rule of Law & Constitutionalism.

YAWEZEKANA
EE MWENYEZI MUNGU, TUZAIDIE.
